Defeat the EFCA Campaign

Payroll Stuffers

Unions don't think you deserve a private vote.

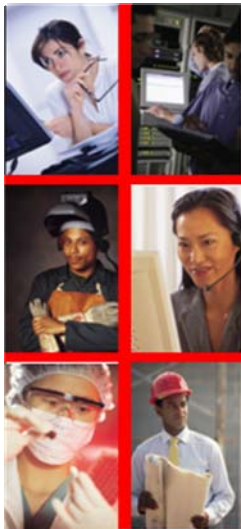

We do.

**Protect Your Rights.
Help us defeat the EFCA.**

- The mis-named, and misleading "Employee Free Choice Act (EFCA)" (otherwise known as "card check" legislation would essentially take away your right to a private ballot when deciding whether or not to join a union. That's simply un-American.
- There's nothing free about the EFCA. The threat of intimidation and coercion due to the card check process is very real.
- All workers deserve the fundamental American right to a federally supervised private-ballot election. This right is guaranteed when you vote in political elections; there is no reason you should surrender that right in the workplace.

We need YOUR HELP. For more information on the EFCA and how you can help block this dangerous legislation, visit the Defeat the EFCA website at www.protectMImanufacturingjobs.com

Do you want EVERYONE to know how you voted?

We don't think so.

**Your Right to a Private Ballot
Is Worth Fighting For.**
